Acknowledgement System

## No other electronic subpoena system compares to eSNAS for features and functionality

- ◆ **Cost effective SaaS** - Software as a Service means never paying for expensive hardware or utilizing scarce IT resources to maintain hardware or software.
- ◆ **Integrate with your RMS** - No more duplicate entry, eSNAS will integrate with most RMS software
- ◆ **Flexible** - Create manual subpoenas for officers and civilians, easily integrate with other systems
- ◆ **Configurable** - Create user groups and shifts, manage subpoena notification settings and schedule reports.
- ◆ **Efficient** - Built in reporting permits quicker billing and supervisory oversight
- ◆ **Intuitive and User Friendly** - Developed with the end user in mind, minimal training is necessary
- ◆ **Functionality** - eSNAS is feature rich, no other electronic subpoena software compares to eSNAS.
- ◆ **Scalable** - eSNAS is an affordable solution for all size agencies

See what our customers have to say...

*"The tracking of the subpoena is exactly what our department needed. It is making officers accountable for their own subpoenas and it makes my job as a court officer more efficient... Overall I would highly recommend eSNAS esubpoena. It is user friendly and manageable. I am able to log in on my cell phone and update cases from afar."*

*Lili Rubio, Court Officer*
